Albany Fire Chief Addresses Residents to Observe Laws

Chief Fred Pimental urged the cooperation of all Albany residents in observing the ordinance forbidding the burning of any material on the street or area between the curb and sidewalk. The chief states the reason for the ordinance is to protect the pavement when a fire is burned upon the street. The pavement is destroyed in the park area is a serious practice because of persons and persons using the sidewalk. Pimental adds that burning is allowed only after first obtaining a permit from the fire department and the burning to be done in approved type incinerator. Lists of authorized burning are set out in the morning to 10 o'clock in the afternoon, daily on Mondays. Monday is set as washday for the Albany fire.

San Pablo-Solano Ave. Intersection Bus Stop Decision Again Postponed

Owing to the absence of Councilman Donahue, due to illness, discussion on the proposed changes in bus stops at the San Pablo-Solano Avenue intersection was held over until next week, Mayor Howell stating that he did not think it should be taken up until the full council was present.

Mrs. Kathie Zahn gave a full report on her trip to Sacramento last week, together with her observations on the status of the Breed Transit District Bill, now before the Transportation Committee at the State Capital. She said amendments already had been presented which would clear up some of the objections voiced by the Albany Council, but declared the bill still was a "Hot Potato" that would bear watching, especially with respect to the absence of any ceiling on the possible tax rate which might be imposed by such a District as that contemplated in the Breed Bill.

After hearing Mrs. Zahn's report the Council voted to accept it. Then, on motion by Combs, and seconded by Blank, the Council approved sending Mrs. Zahn to Sacramento on Tuesday, as an "observer," to report back on developments in the Legislative Committee at its scheduled meeting, starting Tuesday morning.

Recommendation of City Engineer Howard B. Carter calling for the resurfacing of portions of Cornell, Masonic, Pomona, Sonoma and Washington Avenues at an estimated cost of \$20,584 was approved, and he was instructed to prepare specifications for the work in order that City Clerk Myrtle McLean, might advertise for bids. It is expected that it will be possible to start the work shortly.

A request that Jackson Street be widened was referred to the City Engineer for investigation.

A letter from the City Engineer suggesting the usual "Spring Clean-Up Week" be authorized, was approved, with instructions that City Engineer Carter supervise the program.

Proposed Ordinance No. 774, amending Ordinance No. 538, authorizing a change in "set-back," was passed to first reading. This is at No. 539 Talbot Avenue.

The request of a resident in Pomona Avenue for permission to pave the 4-foot parking strip in front of her property, was denied on the ground that it was contrary to the City's policy.

Request of Chief of Police Ralph M. Jensen for permission to employ a probationary officer to take the place of Patrolman Jack Edwards, resigned, was approved. A further request that Wallace G. Mardilla be certified as a regular

patrolman, also was approved. Fire Chief Fred Pimental was instructed to represent the City at a meeting of the East Bay Hills Fire Protection Committee on Wednesday morning. The purpose of this meeting was to discuss financial participation by various areas affected in fire protection in the hills, posing of fire look-outs during hazard periods, etc.

Proclamation

The following proclamation has been issued by Mayor Lewis M. Howell of Albany, designating the period from April 1 through April 30 as "Childhood Nephrosis Month in the City of Albany":

WHEREAS, Childhood Nephrosis is one of the most common of all diseases of children, and death now claims fifty per cent of its victims, and

WHEREAS, currently both the cause and a cure of Childhood Nephrosis are unknown, and medical research is urgently needed to stamp out this scourge, and

WHEREAS, the Western Nephrosis Society, working in concert with the National Nephrosis Foundation, has pledged its full energies to a program of support for the existing, and the establishment of new and more penetrating, research projects, and

WHEREAS, with the aid of such dedicated organizations, the medical profession has been able to make great strides in bringing better health to the children of this city, and

WHEREAS, the people of the City of Albany have always been quick to respond to the needs of our children;

NOW, THEREFORE, I, Lewis M. Howell, do call upon the people of the City of Albany and urge their considered interest in this great cause and do hereby proclaim the period from April 1 through April 30, 1955, as Childhood Nephrosis Month in the City of Albany.

Dessert Whist

Tuesday, April 12

A dessert whist will be held Tuesday, April 12, at 12 noon in the St. Ambrose Parish Hall, corner Gilman and Cornell Aves. Mrs. C. L. Chase, chairman, will be assisted by Mesdames Frank Ryken, Carlos Valencia, Wilbur Gram, S. C. Cagaaman, Michael Boyle, L. Anderson, and Richard Lynch.

Mrs. Karl Schnell, president of the Blessed Virgin Mary Sodality has extended an invitation to the public.

COUNCIL TO ELECT MAYOR MONDAY

Albany City Council will choose who will serve the City as Mayor at the meeting next Monday night.

It has been a custom to rotate the choice among the members of the Council, but this procedure has not been followed during recent years and the question of who will be named mayor appears to lie between three council members.

Lewis M. Howell, who was appointed to the council in 1952 when John C. Longaker, who has just been elected, resigned. Howell served out the two-year term and was elected to a four-year term in April a year ago. He has now served a mayor for two consecutive one-year terms.

Then there is Councilman Jerome Blank, who was first elected to the council in 1950 for a two-year term, and re-elected in 1952 for a four-year term, which expires next April, as do the terms of Councilman William T. Donahue and Edward E. Combs. Blank served as mayor for two terms, 1951-52 and 1952-53.

Councilwoman Kathie Zahn is definitely a candidate for the post of mayor. She has many times expressed disappointment at being "passed over" in the choice of mayor in spite of her five full years on the council, and contrary to the former custom of rotation among the members. She and Mayor Howell have three more years to go. She was elected to a four-year term in 1950 by what was then said to be a record vote for a long term candidate, 2470 votes in a field of 7 candidates for 2 vacancies. Last year she was re-elected to a long term by a vote of 3374 out of a total of 6124 votes cast.

Whether or not Mrs. Zahn's fellow council members will again pass her by, remains to be seen. The answer will come next Monday night. The Council convenes at 8 o'clock.

Morning and afternoon sessions and committee hearings will be visited, and luncheon will be enjoyed at the Del Prado restaurant outside of Sacramento.

A nominal charge will be made for transportation and lunch, and reservations must be made with Mrs. Marie Wyers, 2132 Essex St., Berkeley, by April 11. All interested women are invited to join the group for the trip.

Nephrosis Month
By Foundation**

The Western Nephrosis Society, an affiliate of the National Nephrosis Foundation, announces that the month of April 1 through April 30 will be designated "Childhood Nephrosis Month." The National Nephrosis Foundation is a non-profit organization with affiliates in many cities throughout the United States.

Childhood Nephrosis is one of the most common chronic diseases in children. Its cause is unknown, there is no sure cure and one half of all the youngsters with childhood nephrosis die after a long illness. It hardly seems possible that there exists such a ravaging disease of children and yet most persons have never heard of it. It is a disorder of the kidneys and medical science has found no cause or cure for it, although the disease has been known to exist for 120 years. Ordinarily, nephrosis first attacks children between one and 3½ years of age, though it has occurred in babies no more than 6 weeks old. Most illnesses in childhood run their courses in several days or at the most a few weeks. Nephrosis on the other hand usually lasts several years. It causes extreme discomfort to the afflicted children and endless heartaches for their parents. Treatment of a nephrosis child is costly and will usually entail several long periods of hospitalization.

The Western Nephrosis Society was organized in 1953 by the group of local parents who had become painfully aware of this disease through the illness or death of a child from nephrosis. It is a California non-profit corporation whose aim is three fold: 1, to educate the general public as to the nature of the disease; 2, to promote research, and 3, to give aid to the parents of children afflicted with the disease. There are local groups similar to the Western Nephrosis Society in many parts of the country. The society urges that the sup-

**Adult Education Center Will Start
Day and Evening Classes on April 11**

The Albany Adult Education Center will start its spring quarter on Monday, April 11, offering a wide assortment of day and evening classes. It was announced today by Robert G. Dennis, principal.

Registration for evening classes will open at 6:30 p.m. April 11 in the principal's office of the Albany High School Building, while sign-ups for day classes will be made by the instructor of each class on the days they are scheduled. No advance registration is necessary in any class.

The Evening Star, official publication of the Adult Center, giving a complete schedule of classes and description of courses, has been distributed to residents of Albany and neighboring areas. Anyone who did not receive a copy and wishes one should call LAnd. 6-6441 during the day, or LAnd. 5-7131 during the evening.

Day classes will cover a variety of subjects including applied arts, copper work, Dresden and leather craft, elementary ceramics and enameling on copper, braided rug making, dressmaking and tailoring, home crafts, lampshade making, bookbinding, picture framing and miscellaneous accessories, hooked rug making, infant guidance, interior decorating, knitting, millinery, parent nursery, piano, pottery and mold making, psychology of pre-adolescence, and woodshop and furniture refinishing.

port of efforts to control childhood nephrosis he emphasized during the month of April. The campaign will be a nation-wide affair.

Some 25 medical centers throughout the U.S.A. are currently engaged in research projects on nephrosis. The current problem is to provide funds to intensify these projects and encourage new ones. How soon answers to the unknown factors pertaining to this disease will be found depends largely upon how much research is intensified now. How much this research is intensified depends solely upon contributions and untiring efforts of the public to wipe out this scourge that is fatal to so many children. April has been designated as Childhood Nephrosis Month. The Western Nephrosis Society urges

everyone to support the efforts of the society to help assure continued research of this disease and to advance the day when it will be under control.

vices of Holy Communion and sermon by the rector, the Rev. John Hathaway Blackledge, on: "His Mighty Resurrection." There will

be Easter music by the senior choir. They will sing the offertory anthem "He is Risen," by Mrs. S. R. Dows, organist and choir director of St. Alban's. A coffee hour follows the 11 o'clock service.

There will be the presentation of the cross of flowers, and the mite boxes into which the children have been putting their Lenten self-denial offerings. There will be classes for nursery, kindergarten, first and second grade children only.

All communicants in normal health will plan to receive Holy Communion at one of these three services.

7:00 p.m. Members of the high school young people's fellowship will have their worship service and meeting.

ALBANY FIRST BAPTIST EASTER SERVICES The First Baptist Church of Albany announces the following Easter Services: The first morning service will begin at 9:45 a.m. The Sunday School from the Junior Department and up will merge with this service. (The Beginners and Primary Departments will have their own Sunday School sessions at the regular time.) The Youth Choir under the direction of Peggy J. Stafford, will furnish special music: "Christ Arose," and "He Rose Triumphant." The pastor, the Rev. A. O. Odegard, will speak on the sermon subject, "A New and Living Way." The second service will begin at 11 a.m. and will be identical with the first, except that the Chancel Choir, directed by LaVaughn Hill, will furnish the music. They will sing two anthems, "He Arose" and "Redemption."

At 7:30 p.m. the Chancel Choir will present the Easter cantata, "From Cross to Crown," by Alfred Judson. The Youth Choir will also participate in this service. The church is located at Pomona and Solano Aves.

CHRISTIAN SCIENCE SOCIETY OF ALBANY Gold's healing and redemption power will be emphasized in the Lesson-Sermon entitled "Are Sin, Disease and Death Real?" at Christian Science services this Sunday.

Scriptural selections will include the following from Psalms (103:2-4), "Bless the Lord, O my soul, and forget not all his benefits: Who redeemeth thy life from destruction; who crowneth thee with loving kindness and tender mercies."

The present availability of God's goodness and power will be brought out in readings from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, including the following (42:24-30, All): "All reality is in God and His creation, harmonious and eternal. That which He creates is good, and He makes all that is made, therefore the only reality of sin, sickness, or death is the awful fact that unrealities seem real to human, erring belief, until God strips off their disguise. They are not true, because they are not of God."

Historic Gold Discovery Result Of Mere Accident On a mild October day in the year of 1850, a man by the name of George McKnight was chasing a cow across a hillside up in Nevada County when his foot accidentally struck an outcropping of rock and a large piece broke off. Since the piece of rock that broke off had a peculiar sparkle, McKnight stopped to examine it and found that it was shot through with gold. News of his discovery traveled fast through the hills and valleys and soon hundreds of miners were on their way to the spot, which had promptly been named Gold Hill.

Gold Hill, according to the National Automobile Club, turned out to be unusually rich. From the very spot where McKnight had stumbled, miners were to dig \$1,500,000 worth of gold. From a spot just fifty yards farther over they were to take another \$4,000,000 worth of gold. And almost every few weeks a new ledge of the precious metal would come to light and a new wave of excitement would run through the countryside. Here, in this little area of Nevada County, the great gold quartz mining industry was in process of being born.

Senior Citizens Of Albany Offer Toast to Gaeta In the April issue of their very attractive and interesting little magazine, "The Golden Age," the Senior Citizens of Albany pay high tribute to G. D. Gaeta.

"It was he," says the article, "who donated the 120-cup coffee urn to the club, and which was much needed. He has on other occasions donated silverware and dishes, and he is ever eager to help the Senior Citizens in any way he can."

"There just must be a lot of good in the heart of a man to prompt him to do such things, Mr. Gaeta is a pioneer builder in Albany. He came here in 1918, and started in business in 1925. He built the first apartment house in Albany in addition to 425 houses, several apartment houses, and numerous other buildings scattered through Albany."

"He organized the Albany Chamber of Commerce, which was originally The Boosters Club. He is president of the Albany Insurance Agents Association, chairman of the Albany Civil Service Commission; is member of the Cooks Union of the A.F. of L., and a member of the Central Labor Council. He is also a lifetime member of the California Peace Officers Association. He is now engaged in the real estate business at 928 San Pablo Ave."

"Although Mr. Gaeta takes great pride in the part he has played in the development of the City of Albany, probably his one greatest pride is his son Joseph Di Gaeta. Joe was born in Albany and is a graduate of Albany High School. He attended San Francisco Junior College, and is a graduate of Lincoln Law School, having received his law degree "Cum Laude" and was valedictorian of his class. The City of Albany is proud of its children like young Joe, and we share our pride with his Dad, Mr. G. D. Gaeta."

They weren't, however, content to invent a few mechanical gadgets. They went on to invent a whole new system of laws, and the laws for quartz mining that they drew up in their own crude way were so sensible and so practical that they later became, almost word for word, the quartz mining laws for the entire United States.

Even today the Gold Hill area is threaded through with more than 350 miles of mining tunnels and new gold keeps coming in. And on the base of the old Gold Hill Mill a granite column topped with a great chunk of gold quartz rises to mark the spot where a man chasing a cow stumbled across an immense fortune in gold and established a whole new industry.

Scout Troop 14

Fetes Anniversary

At Camp Herms

It was no April Fool affair when on Friday, April 1, Boy Scout Troop 14, sponsored by the Men's Fellowship of the Albany Baptist Church, celebrated its first anniversary with a pot luck dinner and a Court of Honor at Camp Herms. The troop's Mothers' Club was host for the evening to nearly 100 Scout parents and friends.

At the Court of Honor, second class rank was awarded to Joseph Torres, Joseph Lotspeich and Ricky Guttridge; first class to Chuck McEachem and the Star Scout rank to Richard Tidwell. Seventeen merit badges in all were awarded to Paul Blume, Dennis Creek, Richard Tidwell, Donald Johansen, John Church, Ken Collicott, Chuck McEachem, Richard Douse and Kent Stutz. The award for four years perfect attendance was presented by Neighborhood Commissioner Huskins and Camp Herms Program Director Bell.

The troop has enjoyed a very successful year, having earned the A. F. Bray award and four others.

Movies were shown by Ralph Stayton of the Eagle Court held last December.

The troop has just renewed its charter and re-elected its troop committee and is looking forward to the completion of the first project of its kind to be handled by a Scout Troop in this area—the planting of approximately 300 evergreen trees at Camp Herms. This is to be done very shortly. Trees were supplied by the forestry division of Crown Zellerbach Corporation.

Law Violators Blamed For Most Accidents

Don't be a motoring misfit. California Highway Patrol Commissioner B. R. Caldwell today applied this term to the small numerical percentage of California drivers who cause, and are involved in, the vast majority of traffic accidents within the state. A summary of patrol accident reports for 1954 indicates that a traffic law violation figured in 93 per cent of all fatal, injury, and property damage accidents. In 67,256 of 72,092 accidents reported, at least

one violation occurred. Driving records indicate that fewer than 15 per cent of licensed drivers in California caused, and were involved in, the traffic accidents in the state over a three year period, and two-thirds of all drivers received no citations during the same three year interval. "It became more obvious than ever that the motoring misfit who disobeys traffic laws is the person responsible for most of California's traffic worries," Caldwell declared. "Despite our most diligent efforts, we cannot cite every traffic violation. It is therefore necessary

that the misfits bring their driving habits into line with other highway users. It is essential that all motorists, and pedestrians too, know and obey the traffic laws," he explained.

Pedestrian Protection

Jay-walking doesn't save time. You usually get stranded in mid-street trying to buck traffic. It isn't worth the risk you run of being hit. So cross only with the green traffic light, advises the American Automobile Association. If there are pedestrian signals wait for the "Walk" signal. You get there just as fast - and more safely.

Timely Tips

Don't let that urge for doing that comes with crisp weather wear you down. There always are a few ways to do things. Here are a few tips to help make light of your chores:

To loosen tight screws or bolts, put a few drops of peroxide on them and let it soak in for a few moments. They'll come away much easier.

Nail a rubber heel to the bottom of your ladder or stool legs and they won't slip.

Painting your steps? Do every other one, then let them dry so you can walk on them while you paint the remaining half.

To prevent spotting hinges or latches when painting a door, rub a little petroleum jelly on them first. Stray paint will then rub off with a wisp of a cloth.

Pour melted paraffin in the bottom of your garbage can to prevent rust.

Civic Music Association To Open Drive

The 1955-1956 membership campaign of the Richmond Civic Music Association is scheduled to get underway Monday, April 11, and continue through Saturday, April 16. George Harlow, president of the association, announced today. Some 350 volunteer workers are expected to attend a kick-off dinner launching the drive at 6 p.m. Monday at the Richmond Municipal Auditorium.

Headquarters for the campaign have been established at the Richmond Chamber of Commerce, special telephone BEacon 3-1404.

Membership dues in the organization are \$6.00 for adults and \$3.00

for students covering the entire cost to a member of a full year's series of concerts by internationally recognized artists and attractions. At least six concerts will be presented over the 1955-1956 season. The San Francisco Symphony Orchestra has already been signed for February of 1956.

New members for the 1955-1956 season may attend the final concert of the current season, the world-famous Rabinof violin and piano duo, on April 19 at the Richmond Municipal Auditorium, as guests of the association.

Membership in the association will be available through April 16 only, either through volunteer canvassers or directly at headquarters. Admission to all concerts will be by membership card only; no tickets to single performances will be available.

These features and advantages are the measure of a truly modern V8 engine . . . and only Chevrolet has them in the low-price field. Most aren't even found in high-priced cars. That's why Chevrolet is stealing everybody's thunder with the most modern V8 on the road!

Modern 12-volt electrical system!

The only car in the low-price field with the extra energy of 12 volts . . . twice the electrical punch!

Faster, stronger cranking for cold-weather starts! A "fatter" spark for faultless high-speed operation!

Highest standard compression ratio in its field! Chevrolet's compression ratio is 8 to 1, to wring every possible ounce of power and extra miles out of every gallon of gas.

Requires only four quarts of oil! Chevrolet's V8 engines are so efficient they need only four quarts of oil . . . so you save on every change!

Highest horsepower per pound!

These great V8's weigh far less than any similar engine in America, top the low-cost field in power per pound!

Shortest piston stroke in the industry! Three-inch stroke reduces cylinder-wall friction, generates less heat, permits more compact design!

The pistons do far less traveling per mile . . . that means less engine wear, lighter loads on bearings.

It's the valve-in-head V8 as only the valve-in-head leader can build it!

Music Instruction

To be Subject of Garfield P.T.A.

Modern methods of music instruction in the junior high school will be demonstrated to Garfield P.T.A. members at their meeting on Monday, April 11, at 1:45 p.m. in the school auditorium.

Mrs. Blanche Kressman's high seven music class will give a repeat performance of the program which they put on as part of the California - Western Music Educators Conference held in Berkeley the first week in April. Called "Sing of America," the program is put on as a typical classroom lesson. The 35 students participating will take the parts of forty-niners, cowboys, lumberjacks, railroaders, sea shantymen and a southland group.

Mrs. Ernest Icardi, recreation chairman, has announced that a new hobby group for students, the photography club, is now under way under the sponsorship of the Garfield Recreation Council.

Membership in Garfield P.T.A. has grown to 1101, membership chairman Mrs. Frank Jones reports.

At a recent meeting, Alfred Baxter, principal of Garfield, told executive board members that the contract for the new gymnasium has been let and construction should start within 30 days.

Caution is the confidential agent of selfishness.—Woodrow Wilson.

Red Cross Assembly at Albany High

(By JUDY GOSS)

(Senior, Albany High School)

Students' skits, topped by an all-male can-can chorus, highlighted the annual Red Cross Assembly at Albany High School Tuesday, March 15. During the hour-long program, Mr. Samuel Ohler explained the work of the Red Cross and how it helped him.

Leading off the program with a hearty round of applause was the master of ceremonies, Rodney Tognetti. The assembly program revolved around a world-wide search for "Herman," the journalism class' pet flea. Each act consisted of a famous night club or entertainment center which Herman had visited.

Among the many acts were a tap dance by Virginia Moore and Lee Peterson; a modern dance by Chas. Lawson; a pantomime by Yvonne Dedieu and Bonnie Baker; a vocal quartet which included Oscar Jessperson, Jack Howell, LeRoy Valencia and Jackson Freithard; an accordion duet by Judith Kantor and Darlene De Manincor; the Charleston by Nancy Geering, Carol Meyer, Jo Ann Aldegini and Sherry Anderson; a Latin number by Dick Huff, Gary Noe and Roland Howard; and the Can-Can by John DeMello, Jon Spry, Wes Shore, John Gurvich and Alan Ashore.

Following the entertainment Mr. Ohler spoke on "What the Red Cross Means to Me." He concluded his talk with a human interest story about his son, who while playing with another little boy, in May of 1946, found a half-empty can of cleaner. They filled the can with water and put the can on. The ensuing chemical reaction exploded the can in their faces. The sight of both boys was innately and doctors didn't know whether they would be able to see again.

While this was going on Mr. Ohler was in the service, and the expense involved in the accident was very great. The Red Cross volunteered to pay all the bills and permitted Ohler to repay them as he was able.
